# Breif Introduction

# Breif Introduction

Have you ever worried about  
emotion problems?

When you find it difficult to seek the romance, have you given up  
then pursue the bromance?

romance

bromance

?

# Breif Introduction

Well, to be simple and concise, we create the chance for you to **break up** lovers and **get together** with the one you love. break up the couples, get your score, then begin another love story.

**Move ! Move! Write your love story in our Be\_Together.**

**Break them up!  
You can get two  
kinds of results.**

# Breif Introduction

results~

## GAME OVER

You lose!  
They are still together%>\_<%~  
Try again!

CLick

## GOOD JOB

Perfect!O(∩\_∩)O  
You can be together with your  
lover!  
Once again!

CLick

If you still wait and see their happiness as an outsider. You can never real love all the life time~ Sometimes the third wheel makes love deeper, It is also an achievement for you. By the way, a good news for everybody here., The App is still free now~

# Breif Introduction

我想找个妹子  
I think find a sister.

If you are interested, call  
5201314 now~ Our pretty  
Goddess is waiting for  
you!  
Specially for our team,  
you can share you scores  
with your friends!

## Background Music

Mediaplayer

Import the  
Mediaplayer class

- Code
- `import android.media.MediaPlayer;`

Volume set

- Code
- `musicPlayerLoop.setVolume(0.5f, 0.5f);`

Ending

- Code
- `musicPlayerLoop.release();`

# Sound Effect Component

Sound effect

Soundpool

Import the  
Soundpool class

- Code
- `import android.media.SoundPool;`

Definition of the  
Soundpool object:

- `private SoundPool sp`
- `sp = new SoundPool(4, AudioManager.STREAM_MUSIC, 100)`

Playing

- Code
- `sp.play(soundId_lose, 1f, 1f, 0, 0, 1)`
- Parameters: `sp.play(soundId, leftVolume, rightVolume, priority, loop, rate)`

# Sound Effect Component

## Report

Latex

### 1 | INTRODUCTION

This report aims to introduce what we have done with our program. Some works are displayed in pictures.

Our program is called "Be Together".

Have you ever played a game called "beach break"? When you enter our game, you can see a tiny cute interface with green background. Then the couples will appear out of the cave. And you need to point the screen with figure and if you hit it, the couple will be apart and you will get one point.

This game offers user interest and joy by knocking couples to separate them. If you can knock the boy couples, you can get higher scores because it will appear and disappear in a short time, so it is harder to knock. Isn't it funny? (See figure 1)

# Conclution

# Conclution

## Experience & Lessons~

- Try and learn
- Never give up
- Believe in yourselves
- Learn to ask help

PS: You can never be together with your lover if you cannot break up homosexual couples.
